17:00 - 17:30	Wrap-up and close of workshop
19:00	Dinner (self paid)

2 Scope and goals

The main goal of the workshop is to serve as a platform for EVERSE to showcase the work of the project, and receive input from all relevant stakeholders, while facilitating networking and collaboration opportunities between all participants. Stakeholders of particular relevance in the workshop are Funders and Policy Makers, in order to increase awareness on the challenges and opportunities around research, as well as relevant community projects.

The expectation is for participants to bring with them their communities' best practices and services on research software (including but limited to quality, management, sustainability, excellence, etc) in order to engage with EVERSE, while also establishing a bidirectional channel of communication moving forward.

3 Logistics

Workshop is open for anyone interested - free participation, but registration is required (see link below).

Venue:

SciLifeLab, room in Navet (<https://www.scilifelab.se/about-us/navet-in-uppsala/>)

main meeting room, on the ground level, near the entrance

Entrance is at BMC C11 (you can find it on the map [here](#)):

Registration page:

<https://www.eventbrite.nl/e/everse-funders-forum-workshop-tickets-884875304857>

maximum number of on-site participants: 25

virtual participation possible
